

LOVING COMPASSION AFRICA SOCIETY

Back-to-school 2024 - Help make this season one of excitement & hope by helping eliminate barriers for poverty stricken students & parents. It takes a lot of support to achieve our mission of sending vulnerable children, from the Kenya slums, to school. We support over 100 individual students with school fees, one healthy meal a day, a required school uniform & school supplies.

For Only \$50
Provide a child with a new school uniform, back pack and all the school supplies they will need for the 2024/2025 school year.

With your help we can reach our goals:

- provide all of our students with a new school uniform, a back pack and needed supplies,
- to find sponsors for 10 new students, and give them the chance for a better future.

For Only \$30 a month
Provide a child the opportunity of an education and transform their life forever.

A good education is one of the only ways to break the generational cycle of poverty. When you sponsor a child, you transform their life, their families and their communities.

Without our help, these children would not be able to attend school. School in Africa is not free.

Please Help us send more vulnerable children to school

Meet Dennis, 18 years

LCAS has been supporting Dennis through high school. Despite his circumstances, he has performed very well and been accepted into university, Civil Engineering. He has been given a government grant that covers 2/3 of his tuition. But his parents have no way to raise the remaining amount. Dennis could be the first in his family history to attend university. **Only \$100/month** would make his dreams come true and allow him to attend university, break the generational cycle of poverty and then help support his parents and other 3 siblings.

Meet Joyce, 6 years

Joyce has 3 siblings and a single mother who cannot afford to send the children to school. She is only able to find odd jobs and often struggles to feed her children. Just \$30/month would enable Joyce to join grade 1. Joyce wants to become a pediatrician so she can help other children.

A one time donation of only \$50 will provide a child with a mandatory school uniform, backpack and school supplies.

We need
your help

Now more than ever, LCAS needs your help to provide food, shelter and an education to vulnerable children in Kenya. Please consider sponsoring a child's education, Often a parent must decide between putting food on the table or sending them to school, a decision no parent should have to make.

We have a long list of people needing help. For only \$30/month, you could send a child to school. \$50 a month could feed a family of 4 or allow us to add 3 community members to one of our programs. \$100 a month could provide a university education, food and medicine to a family in need or supply a school with teaching materials and supplies.
